GETBACKERS

Volume 12

Art by Rando Ayamine Story by Yuya Aoki

Story Thus Far:

Ginji Amano can amplify and control electromagnetic waves. Ban Mido has the power to create illusions in people's minds for one minute. Together they are the GetBackers, a retrieval agency whose motto is "We get back what shouldn't be gone." For the right price, they'll recover anything that's been taken.

Ban and Ginji (okay, mostly Ban) have really ticked off Hevn, who usually arranges their jobs. But not to worry—their old opponent, master art thief Clayman, comes through when they really need the cash. She's hired the duo to retrieve the art find of the century, the missing arms of the masterpiece statue Venus de Milo! The arms are currently being transported to an auction via luxury liner, and their owner, Miss Hela, has hired the mysterious Protector Natsuhiko Miroku. Miroku apparently has a past with Ban—calling him a "friend," though the way he slices up Ban's photo makes that seem rather unlikely...

As Ban and Ginji travel to the Okinawan port where the ship is docked, they discover that not only has Hevn ditched them, she's hired their sometimes friends, sometimes rivals Beastmaster Shido Fuyuki and Bloody Joker Emishi to compete against them at the same job! One use of the Evil Eye's quota of three per 24 hours, and Ban's laughing instead of the Joker. But before the duo can get to the ship, they're attacked by a dangerous unseen enemy, and Ban doesn't seem happy to recognize the sensation he's getting...

GETBACKERS

Ginji's been captured by the Miroku family! Now that Shido and Emishi know that their target is different from Ban and Ginji's, they've got no problem working alongside Ban to rescue their old friend—assuming Ban can put up with them. But Clayman gave the GetBackers a deadline—the arms must be retrieved before the auction begins, so they haven't got much time left to grab Ginji, the body, and the arms!

Yukihiko Miroku may seem more or less friendly, but the rest of his family have it out for Ban, or Ginji by association. And Ginji isn't the only one Akabane wants to fight; he's had his eye on Ban for a while, bored by the lack of bloodshed. It's too bad Ban doesn't have any more uses of the Evil Eye—he's going to need every trick he can get against powerful opponents like that! And Ginji definitely could use the ability to become the Lightning Lord—but that can only happen in Infinity Fortress, right?

Find out in the next divinely proportioned volume of GetBackers!
